LANGUAGES

Hebrew | Native
English | Fluent
Portuguese | Basic

WORK EXPERIENCE

Frontend Developer
Seegnal
February 2022 - Present (11 months)
- Worked on transitioning main product from AngularJS to React writing in typescript and using node.js as proxy. In the process I also utilized libraries such as RXJS with Redux for sync/async state management, and react router to maintain a seamless single page application experience.
- Wrote a node.js app that can generate an html-based pdf document using values that are dynamically sent from the server side following a user interaction.
- Built upon a new React mobile-web application that utilizes the tailwind and styled components libraries as well as the commonly used react router and redux.

Fullstack Developer
Payoneer
January 2018-2020 (2 Years)
- Developed from scratch and maintained several platforms, using knowledge and experience of HTML, JS, React, CSS, SCSS, React Router and Firebase.

EXTRA WORK EXPERIENCE

Support Agent, Team Leader, Project Manager
Payoneer
November 2012 - February 2022 (9 Years, 4 months)
- I started my career as a support center agent, continued as a shift supervisor, led 2 teams for 4 years(chats and social media) and finally worked as the department's project manager from 2017 and until 2022.

EDUCATION HISTORY

Bachelor of Instructional Design
Institution: HIT
Year of Graduation: 2019
- Designed and developed a gamified app that utilizes articles and video API by filtering down learning material based on user learning preference. Made with HTML, CSS, JS, C#, SQL.
- Designed and developed a web-game that allows users to create a game with custom content or practice their knowledge with an existing game someone else made. Made with HTML, CSS, JS, C#, ASP .NET, SQL and Adobe Animate.
- Designed and developed a learning-oriented website that acts as a purchase guide. Made this with HTML, CSS and JS.

Highschool Diploma
Institution: Aloney Yitzhak
Year of Graduation: 2009
